

From Cape Cod's 1978 Section 208 Plan

The 1978 Section 208 Plan was drafted by the Cape Cod Planning and Economic Development Council.

These are some of the key recommendations as published in 1978.

- The major 208 concern for Barnstable is the protection of its public water supply wells.
- The Planning Board appears to be interested in water supply protection as indicated by its recent zoning proposals. The coordination of town boards and the water utilities is essential to the success of this effort in Barnstable.
- Possible consolidation of the water utilities or some formal coordinative mechanism should be seriously considered to insure efficient and effective protection of the town's water resources.
- While the town is presently constructing an expansion of the sewage treatment plant and collection system with EPA 201 funds, it has not addressed all of the wastewater management problem areas in the town. Additional 201 facilities planning must be carried out to demonstrate a sewer need exists under present EPA criteria.
- Certain problem areas are included as future phases of the sewer collection system expansion in the "Sewer Service Areas" delineated in the 208 plan and would be eligible for 201 funding assistance.

- The present Hyannis treatment plant has the necessary capacity to handle all sewer service area needs in Hyannis.
- Should the town want to expand the collection system beyond these sewer service areas, 201 funds will not be available for these expansions or for an additional treatment plant.
- The need for collection system expansion in the Hyannis area should be carefully considered in assessing the plant's ability to accept wastewater from Yarmouth since the Hyannis treatment plant cannot be expanded beyond its present capacity.
- The town should consider, in the near future, entering into a 201 facilities plan to resolve the present Category 2 problem areas possibly through decentralized solutions.
- The 201 study and efforts of town board should address the coastal water quality problems of the town, particularly Lewis Bay.

Barnstable: 1926-2013

- Appropriation
- Regulatory/Town Meeting Action
- Report/Study
- Infrastructure/Plan Implementation
- Negative Vote/ Stopped Action
- Section 208 Update Stakeholder Process
