

From Cape Cod's 1978 Section 208 Plan

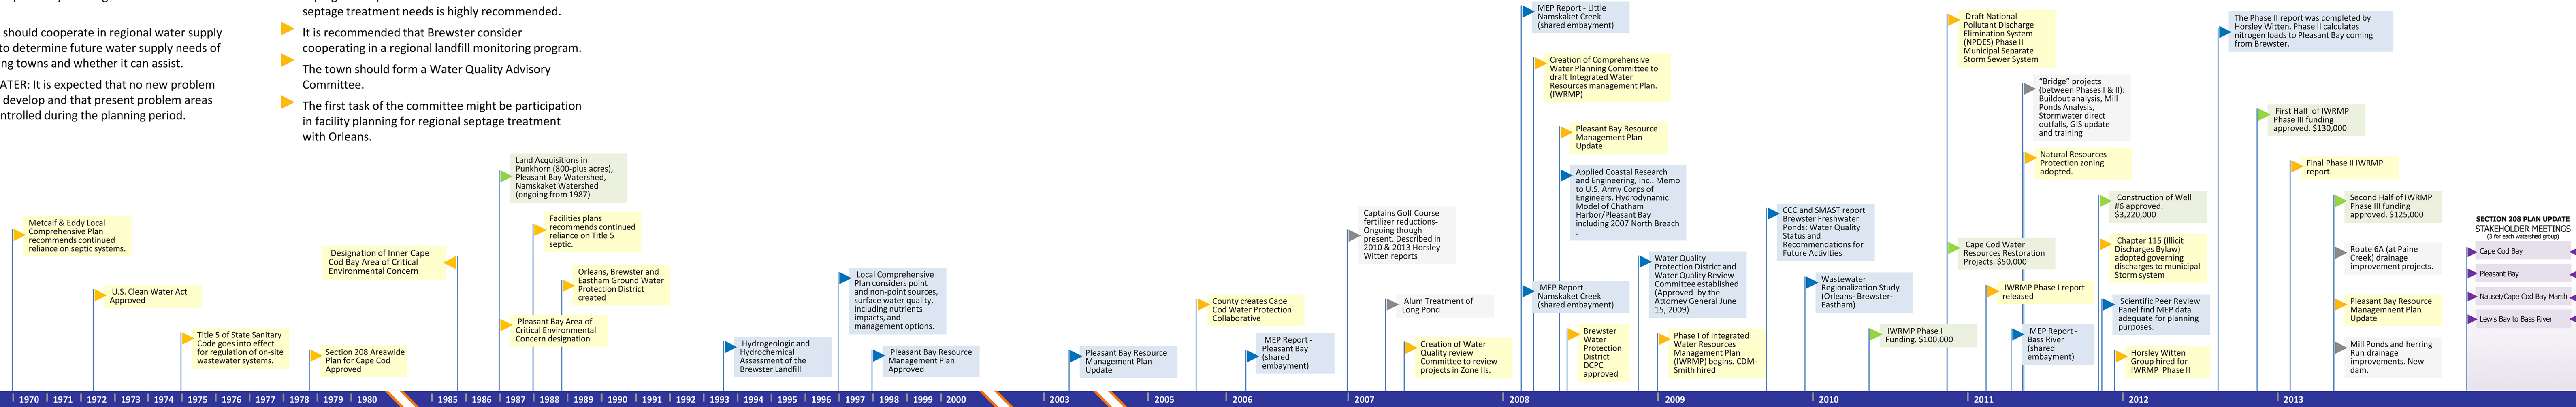

The 1978 Section 208 Plan was drafted by the Cape Cod Planning and Economic Development Council.

These are some of the key recommendations as published in 1978.

- Present and future town well sites should be protected from the non-point sources resulting from New development by creating Watershed Protection Districts.
- The town should cooperate in regional water supply planning to determine future water supply needs of neighboring towns and whether it can assist.
- WASTEWATER: It is expected that no new problem areas will develop and that present problem areas will be controlled during the planning period.
- The Orleans 201 facility plan will soon be underway and the cooperation of Brewster in the planning of a septage facility in Orleans that can meet Brewster's septage treatment needs is highly recommended.
- It is recommended that Brewster consider cooperating in a regional landfill monitoring program.
- The town should form a Water Quality Advisory Committee.
- The first task of the committee might be participation in facility planning for regional septage treatment with Orleans.

Brewster: 1970-2013

- Appropriation
- Regulatory/Town Meeting Action
- Report/Study
- Infrastructure/Plan Implementation
- Section 208 Update Stakeholder Process
